Subject: White plastic bobbins for electric fence.

Good day Brad,

Please would you send 12 extra bobbins for the electric fence so they are all new on the fabulous new gate. I would appreciate your including the cost in our quote, just hope they are not too expensive because we will be eating pap without gravy for the next few months.

We are indeed privileged to stay in my sons house and have agreed to do all repairs and keep it in good order so the cost is for us.

Please advise what cost is.

We are most delighted with our gate and new everything.

You have most delightful staff and they actually leave the place neat clean and tidy after working which is a miracle in this day and age.

Jade has been super helpful too.

If clients ever want a reference relating to your work I will be more than happy to oblige. Must say I was a bit nervous paying cash up front but hey you guys are definitely old school and have honoured your obligations.
THANK YOU!

Pam Harvey
